

**Table I: Demographic VTE Risk Factors**

Demographic Variables	VTE Annual Incidence (per 100,000 population)
Age	
10-19 years	5 cases per 100,000
20-29 years	20 cases per 100,000
30-39 years	32 cases per 100,000
40-49 years	29 cases per 100,000
50-59 years	62 cases per 100,000
60-69 years	192 cases per 100,000
70-79 years	316 cases per 100,000
80 + years	450 cases per 100,000
Gender	
Male	130 cases per 100,000
Female	110 cases per 100,000
Race/Ethnicity	
Caucasian	104 cases per 100,000
African-American	141 cases per 100,000
Latino	55 cases per 100,000
Asian	21 cases per 100,000
